

### DIZZINESS, CONSTIPATION

bad taste in the mouth, drowsiness or "the blues" and other miserable ailments call attention to the liver. It is torpid. Take Hood's Pills—they rouse the liver and relieve all liver ills. They are the old and favorite family cathartic. Purely vegetable. Gentle and thorough. 25c. All druggists.

### WILSON'S CALIFORNIA LEAD MORE THAN 3,400

The State Republican Central Committee Admits It—Unofficially.

San Francisco, Nov. 22.—The Republican state central committee yesterday estimated that President Wilson's plurality in California would be in excess of 3,400.

Based on the estimate on tabulation by them of official returns from 50 counties and semi-official returns from the other eight, they set the figure at 3,416. Sylvester McAtee, secretary of the committee, declared unofficially that this was merely an approximation, but he believed it would prove close to the final official result.

McAtee also declared he was convinced that there was no chance of a split in California's electoral vote, although he believed there would be a considerable difference between the highest and lowest Republican and Democratic electors.

Meanwhile Secretary of State Jordan at Sacramento is rushing his official tally of the vote from the various counties in order to have it finished and certified by the governor before Nov. 30, as required under the law. When work was resumed yesterday the secretary of state's clerks had not found a single error in the returns sent to them.

Thirteen counties remain to be tabulated.

### SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears and after another application or two your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.—Adv.

### DID NOT SHELL LIFEBOATS

Germany Denies an Illegal Attack on Rowanmore

### REPLY HANDED TO AMERICAN EMBASSY

Berlin Admits U-Boat Sank the Arabia—Fear New Trouble May Arise

Berlin, via London, Nov. 22.—Secretary Joseph C. Grew of the United States embassy received Monday the German reply in regard to the sinking of the British steamer Rowanmore and three steamers which were lost in September. In regard to the Rowanmore the German government denies that the submarine fired at lifeboats containing members of the crew and maintains that the men on the Rowanmore owe their lives to the precautions taken by the Germans and the skill with which their operations were carried out. In respect to two of the remaining steamers in question the German government states they were not sunk by German forces and maintains that the Antwerpen, the third steamer, was destroyed in full accordance with the rules of international law. The Antwerpen was built at Newport News for the Standard Oil company and was on her maiden trip to London when she was sunk. She was a vessel of 11,300 tons.

### THROWS COLD WATER ON A. F. OF L. MERGER SUGGESTION

Warren S. Stone, Head of Railroad Engineers, Says the Disputes as to Jurisdiction Bar Such an Alliance.

Baltimore, Md., Nov. 22.—Any expectation that an affiliation of the Big Four brotherhood and the American Federation of Labor might be the result of these bodies' mutual fight for the eight-hour day and the unlimited right to strike, was dampened here yesterday when Warren S. Stone, head of the engineers, addressed the federation convention.

"We are not allied with the American Federation of Labor and only because of jurisdictional disputes that would at once arise in case such alliance should come to pass. That is the reason and that alone," he said.

Stone was the first of the four brotherhood representatives to speak.

"I come with a message of good will from the locomotive engineers," he said. "We four executives are thoroughly happy and thoroughly well contented, though we have had 100 injunctions served on us during the past five days and are expecting more in the next few days."

Stone said more had happened to help the cause of labor during the past 12 months than in as many years previous. "You no doubt have read of the \$8,000,000 combine of employers," he said. "That doesn't worry organized labor in the least."

L. F. Shepard, acting in the absence of A. F. C. Peterson, indicated that the brotherhoods would line up in support of the Adamson law as opposed to the feeling in the federation that the eight hours should be obtained without legislation, when he said:

"I believe the bill (the Adamson bill) will serve our purpose."

### "TANK" PICTURES PUBLISHED HERE ABSOLUTE FAKES

Photos in American Papers Bear No Resemblance to Actual Machine, Says Lloyd George.

London, Nov. 22.—On being asked in the House of Commons yesterday why English papers were not permitted to publish photographs of the British armored motor cars, or tanks, as they appeared in American newspapers, David Lloyd George, the war secretary, said:

"I have seen some of these photos and they bear absolutely no resemblance to the actual machines."

### LEATHER EXPORTS NEARLY DOUBLED

Total Value for September \$12,376,867—Shoe Shipment Less Than a Year Ago.

New York, Nov. 22.—Exports of leather and tanned skins totaled \$12,376,867 for September, 1916, against \$6,426,971 for September, 1915. Nine months' exports were \$67,288,394 in 1916, \$61,840,520 in 1915, and \$34,420,721 in 1914.

Exports of boots and shoes fell from \$5,473,718 in September, 1916, to \$3,908,080 in September, 1915. Nine months' exports were \$33,729,751 in 1916, \$21,754,295 in 1915, and \$12,430,851 in 1914.

These shifting figures may indicate that Europe is disposed to buy more raw material in the United States and less manufactured products.

### LESS MEAT IF BACK AND KIDNEYS HURT

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink, which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

### 40-CENT DAILY RATION TO BE BOUGHT RETAIL

Chicago Health Department's Food Experiment Begins To-day.

Chicago, Nov. 22.—Final preparations were made yesterday for the city's diet experiment of two weeks, in which each of 12 employees of the health department will attempt to live for 14 days on 40 cents worth of food daily.

The food is being provided by John Dill Robertson, health commissioner, and will be purchased at a retail grocery store. The health commissioner said it would be easy enough to obtain the food wholesale at the set price, but it is his desire that it be purchased at a place where any individual might obtain it.

The meals are to be prepared at the School of Domestic Arts and Science and the experiment begins to-day.

Mrs. Lillian A. Kemp, director of the school, and Miss Anna Johnson, dietitian at the municipal tuberculosis sanitarium, will make a tour of retail groceries in an effort "to strike average prices."

The lowest prices will not be paid, as the health commissioner maintains that fair and useful data cannot result from the test unless average prices are paid.

Others who are interested with the health commissioner in the experiment are Sol Westfield, head of the National Retail Grocers' association; Mary V. Connor and Mrs. Aldine C. Coulter of the Woman's City club, and Mrs. N. E. Badenoch of the American School of Home Economics.

### DESPAIRING CRY FROM BELGIUM TO AMERICA

Deportation Situation Horrible—Stop It, Carton De Wiart Implores—300,000 in Danger of Slavery.

Washington, Nov. 22.—H. Carton de Wiart, Belgian minister of justice, has sent from Havre the following cablegram to Miss Mary Patten of this city, regarding deportation of Belgians to Germany. It was received yesterday:

"News from Belgium describes situation horrible. Over forty thousand men already deported for military work amid awful scenes; number proposed, three hundred thousand. Stop it, please. Get influential friends. Start strong campaign of opinion which might possibly prevent extensive slave trade. Implore your help in name of humanity and honor of mankind."

### BIGGEST GUN KNOWN FOR AMERICAN NAVY

Sixteen-Inch, 50-Calibre Rifles to Be Carried by New Dreadnoughts.

Washington, Nov. 22.—Battleships authorized this year will carry the most powerful guns of which the navy has any authentic information. Rear Admiral Strauss, chief of ordnance, told the House naval committee yesterday he expected to complete and prove a 16-inch, 50-calibre gun early next year.

"We have a very good 16-inch, 45-calibre gun," he said, "but the 50-calibre weapon will be the largest gun in the world of which we have any authentic information. We wish to build and prove the new gun, however, before adopting it for new ships."

### MILLIONAIRE BEGINS SENTENCE.

Kelly, Convicted of Fraud, to Serve Two and a Half Years.

Winnipeg, Man., Nov. 22.—Thomas Kelly, millionaire contractor, convicted on charges of conspiracy to defraud the Province of Manitoba in the erection of Parliament buildings here, and sentenced last Saturday, was taken to Stony Mountain penitentiary yesterday to begin his sentence of two and a half years.

### HUGHES WON'T GIVE UP YET.

Denies He Has Written Congratulatory Message to Wilson.

Lakewood, N. J., Nov. 22.—Charles E. Hughes, through his secretary yesterday said the report published Monday that he had prepared a letter or telegram of congratulation to be sent to President Wilson was without foundation.

### HOW TO BE RID OF CHRONIC DANDRUFF

The only way to be permanently rid of disgusting, untidy dandruff is to correct its cause. Destroy the dandruff germ and get rid of dandruff for good by rubbing a little of the genuine Parisian Sage directly on the bare scalp until absorbed. You will surely be amazed at the result of even one application.

Only a few days' massage with Parisian Sage are needed to destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow better, show more life and vitality, and you need never be troubled by dandruff again. Faded, dull or lifeless hair is quickly restored to beauty by this simple treatment, which is absolutely harmless.

Parisian Sage can be obtained from the Red Cross Pharmacy and druggists everywhere. It is not expensive.—Adv.

### THE NINE TEES OF GOLF.

Curiosities  
Anxiety  
Aspirites  
Assiduity  
Mendacity  
Dextrinity  
Eccentricities  
Sentility  
Fatalities.

—Golfing.

To lubricate a door lock or any that does not work well, use lead scraped from a lead pencil. Put the scrapings on a piece of writing paper and blow them into the lock through the keyhole.

### WILSON TO DEFY LABOR

President Will Urge Compulsory Investigation of Labor Disputes

### STRIKES PRIOR TO THIS WOULD BE ILLEGAL

His Whole Former Program Will Be Pressed on Congress at Coming Session

Washington, Nov. 22.—President Wilson's recommendations for railroad legislation in his address to Congress will be virtually the same as those embodied in his special address last August when a nation-wide railroad strike was pending. The president discussed some of the details yesterday with the cabinet.

In his special address the president made six specific recommendations. Two providing for an eight-hour day as a legal basis for work and of wages on railways and for a commission to observe the operation of the law, were embodied in the Adamson act.

The others, which remained unacted upon and which will be renewed by the president, are:

"Immediate provision for the enlargement and administrative reorganization of the interstate commerce commission along the line embodied in the bill recently passed by the House of Representatives, and now awaiting action by the Senate; in order that the commission may be enabled to deal with the great and various duties now devolving upon it with a promptness and thoroughness which are with its present constitution and means of action practically impossible."

"Explicit approval by the Congress of the consideration by the interstate commerce commission of an increase of freight rates to meet such additional expenditures by the railroads as may have been rendered necessary by the adoption of the eight-hour day and which have not been offset by administrative readjustments and economies, should the facts disclosed justify the increase."

"An amendment of the existing federal statute which provides for the mediation, conciliation and arbitration of such controversies as the present by adding to it a provision that in case the methods of accommodation now provided for should fail, a full public investigation of the merits of every such dispute shall be instituted and completed before a strike or lockout may be lawfully attempted."

"The judgment in the hands of the executive of the power, in case of military necessity, to take control of such portions of such rolling stock of the railways of the country as may be required for military use, and to operate them for military purposes, with authority to draft into the military service of the United States such train crews and administrative officials as the circumstances require for their safe and efficient use."

Attorney General Gregory said at yesterday's cabinet meeting the government was fully prepared to defend the suits to test the constitutionality of the law, and he supposed railroad brotherhood officials would be represented by counsel.

### 25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make It Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderuff to-night—now—any time—will surely save your hair.

Get a 25-cent bottle of Danderuff's Dandruff from any drug store or toilet counter, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

### FARMERS WERE INTERESTED

At Agricultural Meeting Held in East Bethel Saturday Night.

The agricultural meeting held in grange hall, East Bethel, last Saturday evening was attended by a very good sized and interested crowd of farmers and other people, who, apparently, very much enjoyed the speaking on the various lines of agricultural work that were discussed. The local orchestra, assisted by Fred Parkhurst of Chelsea as violinist, played a number of selections during the evening.

The first speaker of the evening was C. W. Fryhofer, dairymen and creamery expert employed by the United States department of agriculture and assigned to the state of Vermont at present. His talk ran mostly along things pertaining to creamery management and relations of creamery patron and creameryman. He emphasized very much the good results both to the patron and creamery where both energetically and harmoniously worked together to get the best product possible. He spoke at length on the subject of "Churn Surplus" or "Creamery Overrun," bringing out that the general composition of every 100 per cent of butter manufactured in a well managed and carefully operated creamery is practically as follows:

Water 15.5 per cent, salt 3 per cent, curd 1 per cent and butterfat 80.5 per cent. Saying in other words that the creamery buys from the farmer 80.5 per cent of butterfat and adds to it 19 1/2 per cent of water, salt and curd and makes 100 per cent of butter. In making butter of this composition the churn surplus, which is really the gain per cent from butterfat to butter, is nearly 25 per cent. In the making of butter there are always little losses that cannot be avoided, but Mr. Fryhofer states that it is expected and the local creamery should get a surplus or overrun of 23 per cent. This would give a gain of over seven cents a pound on the butterfat after it was made into butter.

He took for example the month of October this year when tub butter was quoted at 35 to 35 1/2 cents a pound, and the market price for prints, the form in which most Vermont creameries make their butter, being one cent a pound premium made the net returns for print butter 36 to 36 1/2 cents a pound. Adding to this the seven cents a pound or more surplus would give the creameries from 43 to 44 cents a pound for their selling price of butterfat.

Mr. Fryhofer stated in his closing remarks that the creameries of Vermont should have paid 40 cents or more a pound for butterfat for the month of October and a great many of them did, some of the well managed co-operative creameries who were getting a good premium for their butter paying 42 cents and 43c a pound for butterfat.

The next speaker of the evening was J. C. Otis, the Windsor county agent, whose subject was on the values of commercial feeds. He showed by figures that the real value of these feeds cannot be determined by their market price or dealers' price per 100 pounds. That corn and corn meal even though it is very much higher than some other feeds, still furnishes more feeding value for the money than many cheaper grains. Cottonseed meal appeared to be about the most expensive grain for its real value, the real value, the nutrient in this feed, costing three cents a pound against corn, bran and some distillers' grains whose nutrient at present prices cost 24 cents a pound. He mentioned the fact that some sections were selling hominy cheaper than corn meal and advised farmers to buy this instead, as the feeding value was just as good.

The last speaker of the evening was Mr. Tolstrup, employed by the state of Vermont department of agriculture to study and assist in the marketing of Vermont farm products. He was a very witty speaker and kept the audience in a merry mood all the time he told of the conditions of marketing and emphasized over and over again the need for Vermonters to do a better job of packing, sorting and grading their products in order to add to their appearance and attractiveness on the markets.

There was a free supper of sandwiches, cake, coffee and unfurnished apple juice served to everyone after the speaking. The orchestra played for a social dance until the hour of the beginning of Sunday arrived. It is hoped and expected that other meetings of similar nature will be held frequently here this winter.

### TO CURE A COLD IN ONE DAY

### RED CROSS SEAL FIGURES.

325,000 Holiday Stickers Already Distributed in United States.

Few people have any conception of the magnitude of the Red Cross Christmas seal campaign. Here are a few figures that will show what a gigantic movement this is. Already 325,000,000 seals have been printed and practically that entire number distributed to agents in every state and territory of the union from Alaska to the Canal zone, from Porto Rico to Hawaii, and even in the far-off Philippines. Advertising circulars, posters, cards, etc., to the number of several million, have also been distributed. Not less than 1,000,000 persons at letters asking people to buy seals have been sent out. It is estimated that the army of workers, nearly all of whom are volunteers, engaged in selling the seals numbers well over 500,000. The advertising and publicity devoted to the campaign amounts to several hundred thousand dollars. Every effort is being put forth to sell 100,000,000 seals, or only one for every man, woman and child in the United States. This will mean \$1,000,000 for the anti-tuberculosis campaign in the United States. Over 1,500 anti-tuberculosis associations of the country derive their support from Red Cross seals. If the good work is to go on, you must help.

### Varsity Fifty Five

It means plenty of variety in suit styles.

Hart Schaffner & Marx Varsity Fifty Five means many variations of one fundamental style idea. Notice the smartly dressed young man in this picture; a belt back, single breasted coat, and a one button sack; different lapels and pockets.

Lots of different fabrics.

There's no limit to the range of materials and patterns; you'll find your size in fancy blues and browns, grays, mixed weaves, checks and stripes.

### Moore & Owens

Barre's Leading Clothiers  
122 North Main Street Tel. 66-W

### EAST BETHEL

Quarries Shut Down, Small Crew Breaking Grout for Crusher.

The long-expected shutdown of the quarries occurred last Thursday. All drilling has been suspended, leaving a small crew of men breaking grout for the crusher, which job will also be completed about the middle of December.

Harry Turner goes to Springfield, Vt., Thursday, where he expects to work in a machine shop. Allen Rogers also departs on the same date for Springfield, Mass., where he has a position in a rubber factory.

Mr. and Mrs. Fred Bacon were in Chelsea last week to attend the funeral of a relative.

The many friends of Will Hyzer will be pleased to learn that he is improving in health.

Frank Lamphere has gone to Stratford.

### AMUSEMENT NOTES

Matinee and Night Performances of "Common Clay."

Theatregoers of Barre will be interested in the forthcoming production of "Common Clay," the sensational New York success which comes to the opera house for an engagement of matinee and night next Saturday, Nov. 25.

"Common Clay" is a drama of American life in four acts, by Cleves Kinkaid. Its daring treatment of the two pertinent problems of sex and property created an immediate sensation in Boston, where it was originally produced, and gave it a phenomenal engagement of a solid year at the Republic theatre, New York, last season.

The cast includes: Frank Redick, Eugene M. Desmond, Richard Lyle, Rexford Kendrick, Louis Hartman, Robert W. Smiley, Henry Travers, Lawrence Haynes, Harry Abbot, Belle Mitchell, Millie Freeman, Cecilia Griffith, Lillian Claire, Beatrice Worth.—adv.
